#### Doctor to Oprah TV Audience: Adult Stem Cells Are the Future- Dr Mehmet Oz- LifeZine No. 674

Appearing on Oprah Winfrey's immensely popular and influential national television show on March 30, cardiovascular surgeon Dr Mehmet Oz surprised his hostess (who is not known to be pro-life) by saying that "the stem cell debate is dead" because adult stem cells work but embryonic stem cells cause tumours and "can become cancer". Dr Oz said "all of us were made from embryos" and he spoke at length of adult stem cells successes and promise. D.E./Personal Update, April 16 2009.

#### "For love and money: the political economy of commercial surrogacy" Debora Spar, 2005

Review of International Political Economy, 12:2, pp.287-309

#### "Man's Search for Meaning" Viktor Frankl- 1956

"Ultimately, man should not ask what the meaning of his life is, but rather must recognize that it is *he* who is asked. In a word, each man is questioned by life; and he can only answer to life by *answering for* his own life; to life he can only respond by being responsible." *Man's Search for Meaning*, p.172

"Logotherapy...considers man as a being whose main concern consists in fulfilling a meaning and in actualizing values, rather than in the mere gratification and satisfaction of drives and instincts." p.164

#### "Brave New World"- Aldous Huxley-1931

#### About Artificial Contraception:

"Breast Cancer, Its link to Abortion and the Birth Control Pill"

Dr Chris Kahlenborn – Available on One More Soul Website

Based on six years of study and a meticulous analysis of hundreds of scientific papers and other sources, Dr. Chris Kahlenborn documents the effect that abortion and hormonal contraception have on breast cancer, as

well as uterine, cervical, liver, and other cancers, and even the transmission of AIDS! Hormonal contraceptive use before first full term pregnancy is found to increase risk of breast cancer by at least 40%. The book gives special attention to black women, to various populations of the world, and to effective steps for prevention. This is a very timely and powerful work.

## VIDEOS/ DVD:

### 12-year-old speaks out on the issue of abortion! February 2009

Despite facing threats of disqualification, a 12-year-old girl took first place in a speech contest when she eloquently argued for the rights of unborn children – after an offended judge quit.

Lia presented her speech to judges in front of her entire school on Feb. 10 2009.

"What if I told you that right now, someone was choosing if you were going to live or die?

What if I told you that this choice wasn't based on what you could or couldn't do, what you'd done in the past or what you would do in the future?

And what if I told you, you could do nothing about it?

Fellow students and teachers, thousands of children are right now in that very situation.

Someone is choosing without even knowing them whether they are going to live or die.

"That someone is their mother. And that choice is abortion". ...

### "Mechanism of Action of the Oral Contraceptive Pill"

An excellent video is available HERE, which clearly demonstrates the mechanism of action of the oral contraceptive pill. It explains that at least some of the time "The Pill" works by preventing implantation after conception has occurred. This is an abortive effect which many couples and physicians may find objectionable to use or prescribe. People have a right to know this information.

### “Cutting through the Spin on Stem Cells and Cloning”

Fr Tadeusz Pacholczyk

Priest of the Diocese of Fall River, Massachusetts, USA

PhD in Neuroscience from Yale University

This informative and acclaimed video examines the science and ethics of stem cell research and cloning. Embryonic stem cell research is considered in the light of morally acceptable alternatives, and a careful consideration of the various media myths surrounding this area of science is presented, therapeutic cloning and reproductive cloning are examined both scientifically and morally. The need to carefully protect and safeguard embryonic humans is stressed and highlighted.
